

## **María de las Mercedes Sedano Rodríguez**

Training contract

*Ceramics and Glass Institute*

*Consejo Superior de Investigaciones Científicas (CSIC)*

E-mail: [msedano@icv.csic.es](mailto:msedano@icv.csic.es)

### **Education**

Master's degree in Applied Chemistry, majoring in molecular chemistry and chemistry of materials, UAM, Madrid, Spain. (2018)

Degree in Chemistry, UBU, Burgos, Spain. (2017)

### **Current Position**

Training contract in the Ceramics and Glass Institute (ICV – CSIC) of Madrid.

### **General quality indicators of scientific research**

In 2017, I got the Chemistry Science degree by Universidad de Burgos (UBU), where I completed my final project in “Preparation and characterization of organometallic membranes with vinyl-ferrocene for sensing applications”(2017).

In 2018, I have done the Master's degree in Applied Chemistry by Universidad Autónoma de Madrid (UAM). In Ceramics and Glass Institute (ICV – CSIC) I did the final project of the master in “Optimization of glass compositions for cladding of optical fibers based in oxyfluoride glass-ceramics” (2018).

I worked in Centro Nacional de Investigación sobre la Evolución Humana (CENIEH) as a intern for 2 month (2017).

In November 2018, I joined the Glass Department of Ceramic and Glas Institute – CSIC for started a training contract.
